

Crop stool

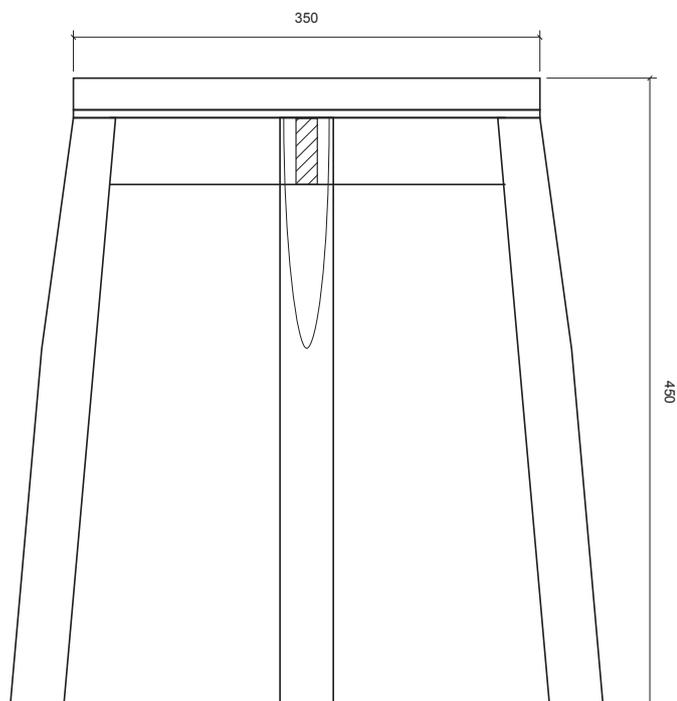

Crop stool

Introducing the Crop stool.

The Crop Stool is hand-made from a blend of solid American and Tasmanian Oaks with an accent of powder coated aluminium. A design feature of the stool is the signature 'crop' which slices an angle through the top of each leg exposing the end grain and joinery.

DIMENSIONS

Crop Stool sustainably sourced solid American Oak seat with Tasmanian Oak legs.

—
SEAT WIDTH: 350mm

WIDTH: 400mm

HEIGHT: 450mm

—
Stools supplied pre-assembled

ACCENT COLOURS

MATTE WHITE MATTE BLACK

The aluminium insert can be customised to any standard Dulux powder coated colour to suit your requirements. Contact us for more details.

TIMBER FINISHES

Please be aware that the nature of timber is that there is great variance of tone and natural character. We cannot guarantee to reproduce an exact match to the appearance and tone of the timber from a product displayed in our photographs.

All furniture is supplied with an organic oil applied as standard. The finish is food safe, as well as safe for humans, animals and plants. It contains no biocides or preservatives, and is resistant against coffee, tea, wine, fruit juice milk and water.

CUSTOMISATION

As the Crop Stool is hand made, it is easily customisable, including timber species, stains or washes, accent colour of the aluminium.

Please contact us to discuss how we can personalise the stools for you or your clients.
