

CORKER

DESCRIPTION

This series of pendant lights is inspired by the iconic cork hats that, for better or worse, are linked to Australiana. Corker playfully mocks this cultural iconography in a modern design context.

Australian designed and made, each piece is hand turned by local craftsmen in Sydney from agglomerated cork. Cork is a hardy yet renewable, bio-degradable and recyclable resource.

Furthermore Corker has been designed for disassembly, ensuring parts end up reclaimed, recycled or disposed of appropriately.

Winner of 2014 Melbourne Fringe Furniture, Sustainable and Waste-Wise Design Award. Displayed at Salone Del Mobile 2015 with the iconic Melbourne Movement.
