

1626 | natural concrete 1624 | charcoal concrete

Technical specifications		
Allura Flex meets the requirements of EN 15351		
 Total thickness	EN ISO 24348	14 mm
 Backer thickness	EN ISO 24348	1,00 mm
 Collection size		43
 Commercial use	EN ISO 10874	34
 Industrial use	EN ISO 10874	42
 Tile size	EN ISO 24342	36 x 50 cm / 139 x 198 cm
 Plank size	EN ISO 24342	180 x 28 cm / 124 x 20 cm / 180 x 28 cm / 180 x 28 cm
 Packaging per carton tiles		22 m ² / 100 pcs / 2,25 m ² / 8 pcs per box
 Packaging per carton planks		2,0 m ² / 100 pcs / 2,2 m ² / 100 pcs
 Squares and straightness	EN ISO 24342	< 0,40 mm < 0,25 mm < 0,40 mm < 0,25 mm
 Total weight	ISO 23887	< 4500 g/m ²
 Wearlayer thickness	EN 411	Class T
 Slip resistance	AS468: 2013	R10
 Acoustic impact noise reduction	EN ISO 717-2	14 dB
 Surface heat conduction	ISO 418	Squares
 Thermal insulation	EN ISO 10456	< 0,20 mm < 0,17 mm
 Light transmittance	ISO 105-802	> 4,5
 Resistance to chemicals	EN ISO 23887	Very good
 Dimensional stability (after exp. to heat)	EN ISO 23899	< 0,05%
 Creating better environments		
 Renewable electricity		Allura Flex is manufactured using 100% electricity made from renewable sources.
 Emission class per	EN ISO 10608-9	< 0,05 g/m ²
 Back to the Floor	ISO 10888	Installation of tiles can be collected and recycled via Back to the Floor.
 Life Cycle Assessment		Allura Flex meets scheme 10, M12 self floor coverings, in office, retail and higher education schemes. LCA is the foundation for securing the lowest environmental impact.
Allura Flex meets the requirements of EN 14041		
 Reaction to fire	EN ISO 13963	EN ISO 13963
 Slip resistance	EN 13893	EN 13893
 Thermal conductivity	EN 12524	0,25 W/mK
 Dry voltage	EN 1815	< 2 kV
Recommended Adhesives		
Allura Flex should be installed using a high quality adhesive. Forbo recommends Eurocol 542 Kastle Tack Plus.		
BREACH ratings (opens)		
Allura Flex meets the requirements of EN 15351

MORE ALLURA LVT COLLECTIONS

allura core

Allura core
The Allura design signature is inspiring, offering over 100 different designs in a wide variety of different sizing. This including our widest collection of wood designs. The range of stone and abstract designs ranges from classic marbles and concretes to eye catching galaxy and space designs. Allura is the Luxury Vinyl Tile of choice, take a look and see for yourself what Allura has to offer you and get inspired by the endless possibilities.

allura click

Allura click
Click systems in LVT have become very popular but are often associated with the residential DIY market. Forbo's Allura click is created for the professional and semi professional market. The patented angle down click system is strong and precise milling of the connection secures smooth and effortless installation. Allura click comes in both life like and realistic wood and stone designs and is available in plank sizes.

synergy

3 Designs, 3 shapes, 3 textures
1 holistic workspace flooring collection. In Synergy we combine Tessera carpet tiles with Allura Flex vinyl tiles which opens up a whole new world of stunning 'floor designs. Synergy presents 3 design elements: The linear 'Seagrass' in a plank format, the vivid, highly textured 'Hybrid' in a large rectangular tile, and the understated 'Marble' as a traditional square. Complemented by pure colour from Tessera Clarity.

allura
flex

Premium Modular tiles

Allura Flex is a collection of high quality, dimensionally stable, heterogeneous Modular vinyl tiles and planks which are adhered with tackifier that allows post use removal. The design concept of Allura Flex consists of the most realistic wood designs in the market, but also essential concretes and interesting textile and colour effects. The multiple formats offer design freedom, featuring larger sizes and the distinctive Hungarian Point format, and are easy to combine. The collection works beautifully with our Tessera & Westbond carpet tiles due to the same gauge saving time, money and the need for transition details.

The Forbo exclusive combination of functional layers, including a strong glass fleece carrier, makes Allura Flex unprecedented in dimensional stability, strength, performance and quality. In addition, Allura Flex has a 1 mm transparent wear layer and proven PUR finish.

Beautiful designs in wood, stone and brights that are easy to install, resulting in stunning and reliable floors. For increased flexibility a selection of these designs are available in not only Modular but fully adhered and click formats.

Allura is 100% phthalate free, REACH* compliant and produced in Europe with low emission levels. The best in class dimensional stability ensures safe and hygienic floors as dirt isn't trapped in the seams. Available in natural stress reducing designs and high LRV's, choosing Allura means you are choosing to create better indoor & outdoor environments.

*Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) address the production and use of chemical substances and their potential impacts on both human health and the environment.
