

## COMPREHENSIVE 5 YEAR WARRANTY

Verosol blinds and window coverings are manufactured from high quality fabrics, metal, timber and components, under strict quality control, to provide you with years of trouble-free use. We guarantee that Verosol products are free from defects in material and workmanship for 5 years from the date of installation. Normal wear and tear, the cost of inspection, removal and/or installation are excluded and misuse or improper maintenance may void this warranty.

We have total faith in the quality of our products and, in the unlikely event that you encounter any problem whatsoever, we will do our utmost to provide a solution which is to your total satisfaction.

## PLEATED BLINDS

## A STATEMENT OF STYLE AND PRACTICALITY

Verosol Pleated Blind - fabric: 812 Originals Semi Transparent, Gravel

As bold or discreet as you choose, Verosol pleated blinds offer total design freedom. Draw on a stunning range of colours, fabrics and transparencies to create the perfect look for any window, then finish with a coordinating or contrasting colour for the rails.

Verosol pleated blinds also help you maintain a comfortable environment by reducing glare, and helping to insulate your home against heat in summer, cold in winter.

Verosol Pleated Blind - fabric: 816 Originals Transparent, Onyx

## A TOTAL DAY / NIGHT SOLUTION

Verosol Twin Pleated Blind - fabric top: 878 Originals Non transparent / fabric bottom: 816 Originals Transparent

Two blinds in one, the Verosol Twin offers complete flexibility and function. By combining two fabrics with different densities and transparencies into one blind, the Twin provides privacy, heat and glare protection without obscuring your view.

Verosol Twin Pleated Blind - fabric top: 878 Originals Non Transparent / fabric bottom: 816 Originals Transparent

With Verosol's Twin Pleat - you can adjust the blind so that either fabric covers as much of your window as you choose. By day, you can optimise your view - at night, you can lower the opaque section to block the view into your home.

Another very flexible solution is the Duo blind. By giving you the freedom to leave the top of the window uncovered, the Duo can provide the privacy you need with a chance to enjoy the breeze. The Duo is particularly suited to sash windows.

## A BLIND FOR EVERY WINDOW

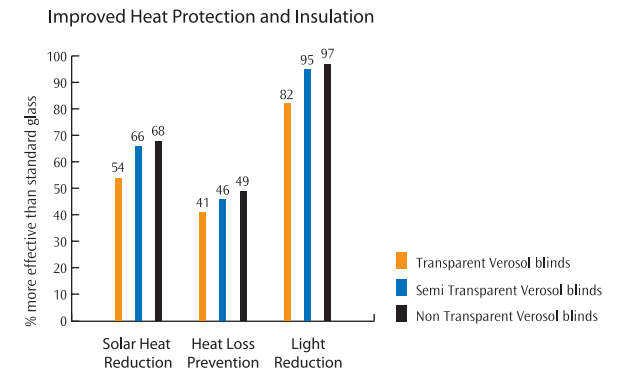

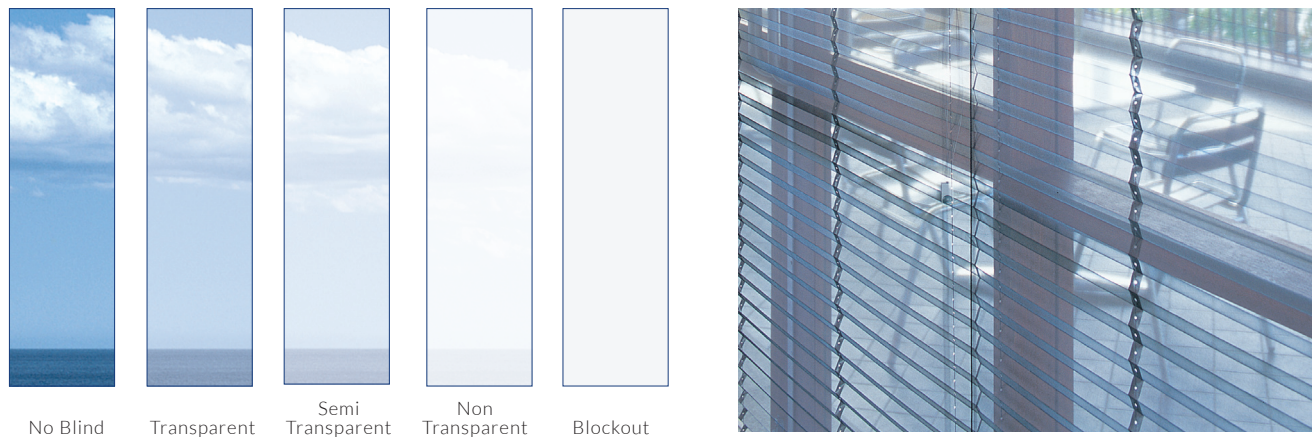

Unusual windows are a feature in some of the most desirable homes. All Verosol blinds are custom made to fit your windows - and that means windows of all shapes and sizes.

As Verosol blinds don't need to operate vertically, they are also perfect for sunrooms and skylights. If you wish, your blinds can be motorised to open and close by radio remote control.

Verosol motorised Pleated blinds are easily integrated into most commercially available home automation and building management systems.

## A CHOICE OF TRANSPARENCY AND FINISH

With Verosol you don't need to lose a stunning view - simply select one of the more transparent fabrics. If night time privacy is a concern, select either a non transparent or blockout fabric.

Verosol's unique, ultra-fine metallised backing improves daytime privacy - you can see out but no-one can see in. These fabrics also provide increased protection against heat and glare - your furniture is less likely to be damaged by harmful UV rays. Verosol metal backed fabrics provide insulation in both summer and winter, minimising the cost of maintaining a comfortable home environment all year round.

Cleaning is also kept to a minimum, the anti-static fabric repels dust and dirt.
