Shibui Shelving System

A balance of simplicity, strength and space, the Shibui Shelving System offers spacious storage defined by an elegant framework of timber and brass. With strength that defies its refined profile and thoughtful details, this modular shelving will sit quietly in any space.

Proudly designed and made in Australia from sustainable timbers and solid brass detail. The Shibui offers space for display with generous open compartments that can be adjusted with additional shelves and refined brass bookends to suit your needs. Closed storage can be added to keep things looking tidy. Add shelves and extra length to make the Shibui work for you. Whether it be storage and display in a hallway, to define open spaces, or as a sideboard with space for music.

ADAPTABLE

Created with flexibility in mind, the Shibui Shelving System can be configured and reconfigured depending on how you want to use it. Shelves can be moved, and parts from an existing system can be used to make a new shelf. Closed storage can be added and moved, and more.

SIMPLE

With strength that defies its refined profile and thoughtful details, this modular shelving has been designed to be intentionally understated and sit quietly in your space.

RESPONSIBLE

Plyroom is a member of 1% for the Planet.

Our exclusive use of certified timbers and water and plant based finishes spans our use of premium materials, including European Birch, American Oak and Tasmanian Oak.

TIMELESS

As with all Plyroom pieces, our intention is to create furniture that doesn't have a use by date. Shibui is a fine balance of simplicity, strength and refinement.

ORIGINAL

We are proud of the Shibui Shelving System, designed and made in Australia. For a truly unique design, work with us to customise your Shibui by size and finish.

Tall leg

Customisations

We have designed the Shibui Shelving System so you can customise the product to suit you. You can choose from our existing options or create something more bespoke.

Step 1: Identify your needs

Creating a functional and aesthetically pleasing shelving system requires careful consideration of your needs. Take the time to assess where the shelf will be placed and its intended purpose.

Step 2: Measure your space

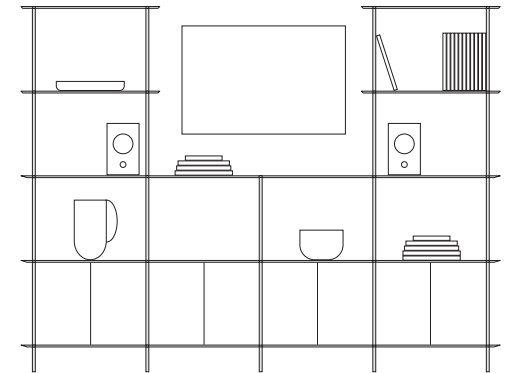

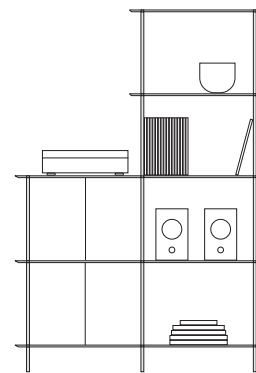

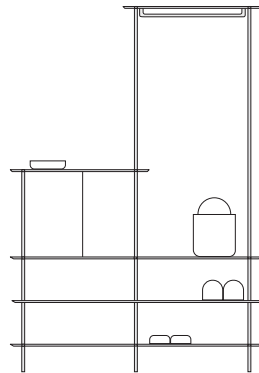

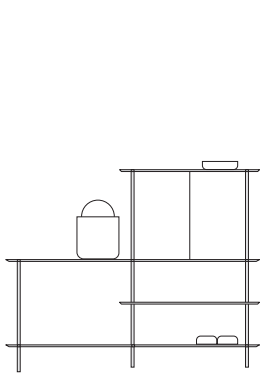

Taking accurate measurements is important for optimising your shibui shelving unit. Our team can help you achieve the best solution by taking into account the width, height, and depth of your space.

Step 3: Contact Us

Let our in-house designer assist you in creating the perfect shelving system for your needs. Contact our team with your collected information, and we'll work together to create a beautiful and functional piece your home.

Popular Customisations

Personalise it by adding components such as a closed cabinet, brass garment rail, bookend, or extra shelving to suit your lifestyle & space requirements.

HALLWAY STORAGE

The humble hallway can be transformed into an artful yet functional space.

BEDROOM

An open closet can be both stylish and practical with the right.

MUSIC UNIT

A stylish way to display your record player and vinyl collection.

ENTERTAINMENT UNIT

A beautiful display for personal items while offering the practicality of closed storage for a tidy home.

MATERIAL

Sustainably forested European pressed birch & solid Tasmanian oak. Protected by hand with low VOC plant based finishes.

- European Birch
- American Oak

LOCAL

Designed by Plyroom. Made in Australia. Made to order.

WARRANTY

A 5 year warranty covers the structural integrity of Plyroom products.

ASSEMBLY

Assembly required. Instructions included.

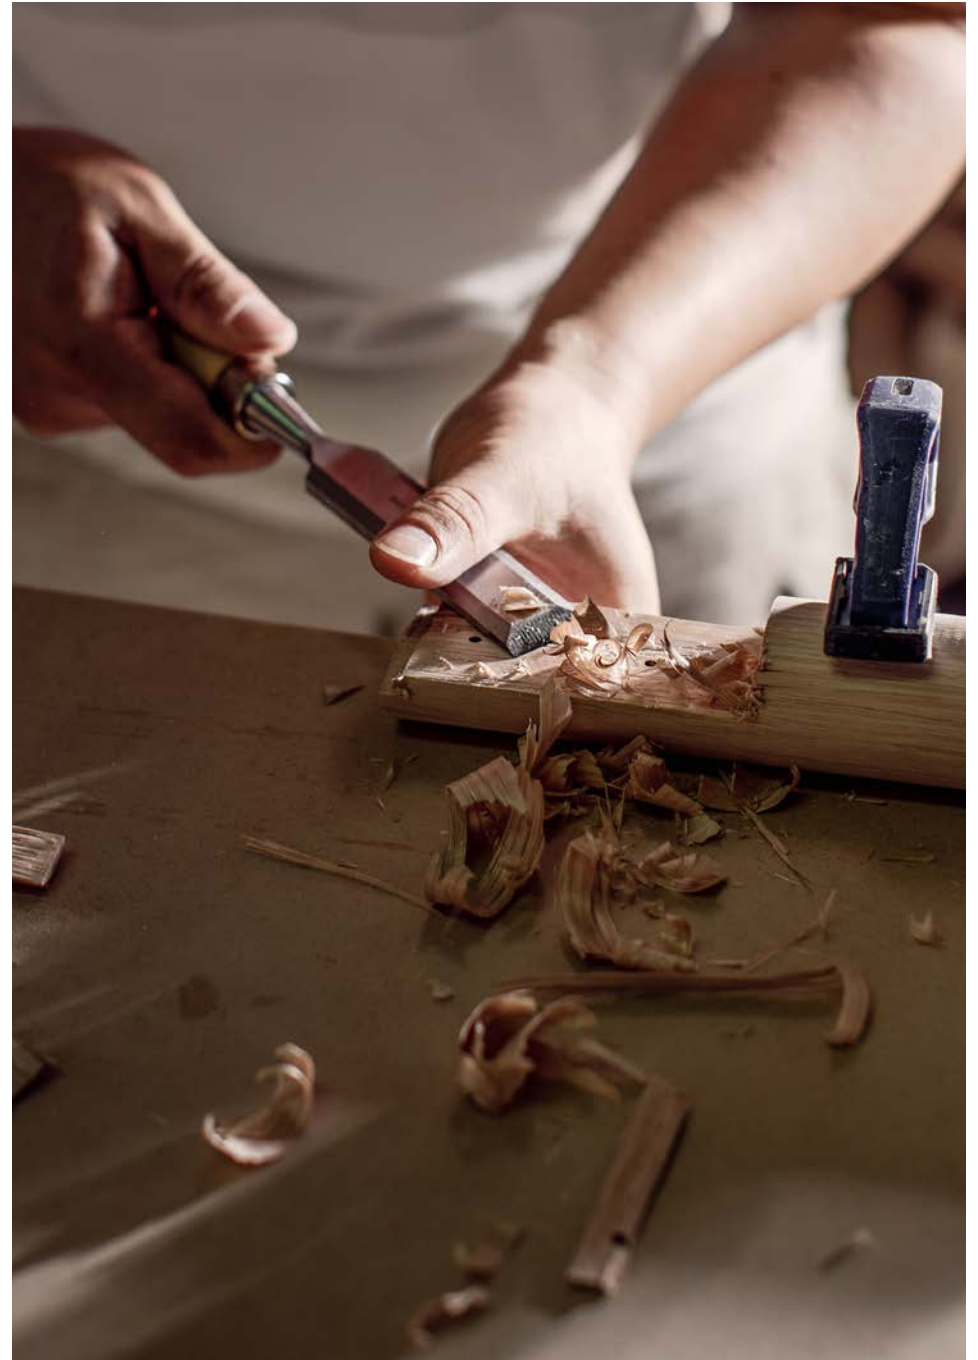

CARE

For general care, we recommend regular dusting with a clean, dry cloth, or wiping down with a soft cloth wrung dry from plain water.

Solvents or direct heat will cause damage to your timber furniture.
